Tapiola Golf Garden TAGi

TAGi is an internationally unique golf garden that offers golfers practically everything they need all year round.

Tapiola Golf's 18-hole links course is the heart of TAGi. Golf course architect Tim Nugent has created a variable layout to suit golfers of all abilities and a range of play strategies. In addition to the full-length course, Tapiola Golf also has good practice areas. Tapiola Golf is one of a kind in its field.

Scenic restaurant Vista is the «19th hole» of our golf course. Its terrace offers a magnificent view over the range and the 18th green. The restaurant is open to golfers and non-golfers alike. Vista, along with its conference and sauna facilities, is open all year round providing an enjoyable venue for meals, corporate events, meetings and family gatherings. The Members' Lounge is open to Tapiola Golf's shareholders and members.

Golf Center, the leading Finnish golf equipment retailer, has its flagship store at TAGi. At Golf Center, you can test the golf clubs, from leading brands in the best possible conditions: Tapiola Golf's golf course and practice areas. Once you've found your favorite clubs, they can be fully customized to suit you in the high-tech

Custom Fit studios, where you can hit the ball from inside the store directly out onto the driving range. In winter the golf store is converted into an indoor practice center.

The OnGolf travel agency is Finland's leading golf trip organizer and its service point complements TAGi's range of services for golfers.

Golf Pro Mika Pitz is one of Finland's most successful professional golfers and he has brought his world-renowned Piltz Golf School to TAGi. Finland's most successful and popular ice hockey player Teemu Selänne works with Mika at the Selänne & Piltz Golf Academy at TAGi.
